PDFTron Sample PDF Text Tag Document 2

Description:
Text tags are available below in white text.

Desired Outcome:
TkXel will utilize the PDFTron library to parse this PDF document and convert the text tags below to PDF fields which can be designated to different "signers" and support the ability to sign in that field.

SignerA Signature Field

{{t:s;r:y;o:"signerb";}}

SignerB Signature Field
